

Recycling Bin– Yellow Lidded 240 litre Bin

"If it's not clean, it's not recyclable"

This is a service provided fortnightly to town residents on the following days:

- Bordertown - Tuesday & Wednesday
- Mundulla, Padthaway & Wolseley - Wednesday
- Keith – Friday

Please ensure your yellow-lidded bin is put out by 6am on the day of collection and is facing the kerb.

When recycling it is important to make sure everything that you put into your recycling bin can actually be recycled and that it is not contaminated by other materials. If everyone follows the simple steps below, we can keep costs down, minimise contamination and avoid sending valuable material to landfill:

- Glass Jars & Bottles - remove caps, lids and recycle (rinse out containers)
- Cardboard - all types of cardboard are acceptable for recycling from non-waxed cereal boxes to large cardboard packing boxes (please flatten all boxes)
- Paper - All office paper, envelopes, newspapers, magazines, pamphlets, advertising material, books and telephone books can be recycled.
- Milk & Juice Cartons - rinse the empty cartons & flatten containers.
- Plastic (only Hard Plastic codes 1, 2, 3, 4, 5 & 7 accepted)
- Steel & Aluminium - All aluminium can be recycled including cans, alfoil trays & aluminium foil (please ensure no food scraps are stuck to trays and foil).

PLEASE NOTE: Recycling bins holding any of the following materials will NOT be collected:

- Dirty Nappies
- Food & Garden Waste
- Syringes
- Pyrex & Ceramics
- Mirror or Window Glass
- Polystyrene
